Commissioner,

As a long time resident of Kingman I welcome new development. I have listened to years of threats that our water is going to run out and I know better than to listen to them. We are a water rich county and it is time that we are able to use our own resources.

I believe in a representative government. I believe that as my elected official you will represent me, me beliefs, my community. We want new, planned development. We want Rhodes Homes.

I have read that Rhodes Homes is waiting for a Certificate of Convenience and Necessity from the Arizona Corporation Commission. I urge you to put your personal beliefs aside and represent the resident of Mohave County that voted for you. We ask you to grant this CC&N.
